

Mark MacNaughton

Senior Vice President, Chief Information Officer,
Medical Segment
Cardinal Health, Inc.

Mark MacNaughton is currently Senior Vice President, and CIO of Cardinal Health's Medical segment. In this role, he has responsibility for all IT delivery and strategy for the Medical segment.

Previously he was Senior Vice President responsible for Enterprise Information Technologies Shared Services. In this role, he had responsibility for Cardinal Health's infrastructure (network, voice, data center), application integration, data management, remote field support and the IT help desk along with Cardinal Health's back-office applications (HR, Finance, Public Affairs and Legal).

MacNaughton has held a number of other roles with Cardinal including SVP, IT Business Partner for Cardinal Health's Clinical Technology and Services business segment, based in San Diego, CA; Vice President, Customer and Sales Solutions for Cardinal U.S.; Vice President, Applications Development for Cardinal Health's Pharmaceutical Distribution division; and Director of Data Warehousing and Data Management for the Pharmaceutical Distribution.

Prior to joining Cardinal Health, MacNaughton was a senior manager with Accenture and a founding principal of The Forsythe Technology Group, a consulting firm specializing in data warehouse development. MacNaughton holds a Bachelor of Science in Systems Analysis from Miami University, Oxford, OH.

MacNaughton currently serves on the Board of Trustees for National Church Residences. National Church Residences provides housing for low-income seniors and homeless veterans. He is on the Miami University (Oxford, OH) School of Engineering and Applied Science Advisory board, is a member of the Upper Arlington High School Booster board, and served in the past as a member of the Columbus Children's Theatre Board of Trustees.
